Bachelor of Technology
Information Technology
GVPCE-Visakhapatnam

SUMMARY

Passionate and dedicated student currently pursuing my third-year undergraduate studies. Have strong academic background with real time exposure in implementing various projects in **Java/C#, Cloud (Azure), and DevOps** related technologies. Have good experience in handling large scale Java/C# codebases, with excellent programming, debugging and communication skills.

ACADEMICS

Bachelor's in Information Technology | Gayatri Vidya Parishad College Eng. | 9.68 CGPA | 2022-Current
Intermediate | Narayana Junior College, Kurnool | 9.89% | 2020-2022
Xth Grade | Jyothi High School , Bandiatmakur | 98.8% | 2019

TECHNICAL SKILLS

- | | |
|-------------------------|--------------------------------------|
| • Programming Languages | C++, Java, C#, Python |
| • Operating Systems | Windows, Linux, System programming |
| • Databases | Oracle, SQL Server, My SQL, |
| • Developer Tools | Eclipse, IntelliJ, Visual Studio |
| • Cloud Technologies | Azure, AWS |
| • Dev Ops Technologies | Git, Github, CI/CD Pipelines, Docker |
| • Web Technologies | HTML, CSS, JavaScript, React, NodeJS |
| • Frameworks | Django |
| • UI/Wire Framing | Figma |

ACHIEVEMENTS

- Awarded a Certificate of **Academic Excellence** in our department (IT)
- Regularly participate in [HackerRank](#) competitions
- Received multiple certificates of completion for **Google Cloud(GCP)** services ([Digital Badge](#))
- Received certificate of completion for **AWS Academy Cloud Foundations** ([Digital Badge](#))
- Received certificate of completion for **AWS Academy Cloud Architecting** ([Digital Badge](#))
- Received certificate of completion for HTML/CSS/JavaScript from SoloLearn
- Completed Internship Program in Web Development from **CodSoft** and received a certificate for my contributions
- Got a certificate for online coding competition conducted by **Flipkart**
- Received a Certificate of Participation in the **Smart India Internal Hackathon** and got Selected.
- Have participated in a 5 day seminar organized by **EdGroom** and received a certificate for my participation
- Wrote articles on [Java Interfaces](#) / [Java Collections](#) / [Java Regular Expressions](#) on my website
- Active member of our college club "**Youth Enlightening the Society**". Responsible for organizing bunch of events
- More achievements can be found at

EXPERIENCE:

- Very familiar with Programming Paradigm like **OOP (Object Oriented Programming) in Java/C#**
- Proficient in using **IntelliJ IDEA/Visual Studio** IDEs for Java/C# development, facilitating efficient coding, debugging, and testing of **Java/C#** applications
- Experienced in implementing **CI/CD pipelines** using **GitHub** CI/CD for automated build, test, and deployment of applications
- Have practical knowledge of **Linux** environment, including **shell scripting** and system-level administration tasks like setting up **SSH** etc
- Have hands on experience in using common data formats like **JSON/XML/Yaml/Toml**
- Have working knowledge in Cloud technologies like **Azure Virtual Machines/Azure Storage/Azure Key Vault**
- Have hands on experience in using **Postman/Fiddler** tools in investigating **REST API** related issues
- Have hands on experience using **Azure Blob storage** using **Azure Storage Explorer**
- Have decent understanding of using **Docker**.
- Have hands on experience using **T-SQL** with various **Databases (SQL Server/Oracle/MySql)**
- Familiar with Database Administration tasks, such as **backup and recovery**, and creating appropriate indexes to ensure optimal database performance

PROJECTS

- **Extensible Desktop Search | C#**
This is an alternate software to Windows default *file searching tool*. It gives better results within no time. It supports file search on various attributes such as author, composer, title, and other metadata.
- **Cloud Backup Restore Utility | C#/Azure Storage**
This is a Backup and Restore Solution tool. It provides a user-friendly UI to backup critical data using Azure Blob Storage. It supports scheduled backups from on-premises to cloud Storage.
- **Personal Portfolio Website | HTML/CSS/Bootstrap**
This Personal Portfolio Website uses front-end technologies like HTML, CSS, and Bootstrap. It showcases an individual's skills, projects, and professional experience. Bootstrap makes the UI responsive on all device screen resolutions
- **Duplicate File Finder | Java**
This tool is developed in **Java Swings**. It scans specified directories for duplicate files based on various criteria such as file name, size, and content.
- **Photo Gallery WebApp | Bootstrap/NodeJS/Azure Storage**
This is user friendly web app designed to showcase and manage images stored in **Azure Blob Storage**. Developed using HTML, CSS, Bootstrap for front-end design, and Node.js for backend functionality, it offers robust features such as image upload, automatic thumbnail generation
- **To-Do List WebApp | Bootstrap/NodeJS**
This is a simple Web app developed using HTML, CSS, Bootstrap, and NodeJS. A user can add, edit, and delete tasks. NodeJS serves as the backend, managing data operations, user interactions
- **Sudoku Solver | Java**
It's the well-known Sudoku Solver which was developed using Java Swings APIs with clean and elegant user interface, to interactively play random Sudoku boards
